In light of the behavior described by Howard, and the potential that these behaviors may escalate as outlined by Dr. Nicoletti, I hope that all employees here at EPA will be walking through the magnometer as a matter of security. These attack-related behaviors are a threat to all of us who work in this building. Allowing Federal and See employees to walk into the building without proper screening puts us all in danger.

Would you please pass along my concerns to upper management and Security?

Thank you.
